

Foreign students arriving from Southeast Asia/South Asia will be rewarded for cooperating with airport testing measures or proactively reporting symptoms.

一、Arrivals at Kaohsiung International Airport

Those who cooperate with all of the following measures will receive a NTD 500 voucher:

- 1 Wait at the airport referral station for the test results.
- 2 Fully complete the dengue epidemiological investigation form at the referral station.
- 3 If the test result requires hospitalization, the following will be provided:
 - ◆ Additional voucher of NTD 1,000
 - ◆ Hospitalization cost subsidy (designated hospitals only)
 - ◆ If admitted to Kaohsiung Municipal Siaogang Hospital or Kaohsiung Municipal Min-Sheng Hospital, taxi fare from the airport to the hospital will be reimbursed (based on actual expense)

二、Arrivals at Other International Airports :

- 1 Those who cooperate with hospitalization at Kaohsiung Municipal Min-Sheng Hospital until PCR test results are available will receive a hospitalization cost subsidy (*excluding self-paid items and meal expenses*)
- 2 NTD 1,000 voucher will be provided

三、If you have entered the country from a high-risk area within the past two weeks and have developed suspected dengue fever symptoms:

Proactively report within 2 days, seek medical care, and complete specimen testing and epidemiological investigation.

24-Hour Epidemic
Prevention (Reporting)
Hotline 07-7230250

Under this program, individuals who develop suspected symptoms of dengue fever within two weeks after entry during the self-health management period must report the symptoms within two days, seek medical attention, and complete the required testing, or comply with post-entry hospitalization arrangements. Those who are subsequently confirmed to have dengue fever will be awarded a reward of NT\$2,500.
